

96082 Technical Data Sheet

Non-flammable glass fabrics

DIN EN 13501-1; A2-s1 d0 (EU); DIN 4102-A2 (D); BS 476 (GB); M0 (FR)

Specifications	Tight-textured fabric
Applications	Wall and ceiling panels
Weight g/sqm	280
Width cm	150
Tensile strength N/cm	Warp 290
	Weft 170
Weave pattern	Plain

Please pay attention to the general product specifications, safety information, cleaning and sewing recommendations.

The values are given as an indication and can change according to application conditions. They do not constitute a warranty.

Users must determine material suitability for their specific purposes prior to use.

Porcher Industries declines all responsibility in case of damage of the fabric related to a non-adequate use, installation or no respect of instructions.

Please refer to General terms and conditions of Porcher Industries, subject to change without notice.
