

## 96105 Technical Data Sheet

Non-flammable glass fabrics

DIN EN 13501-1; A2-s1 d0 (EU); DIN 4102-A2 (D); BS 476 (GB); M0 (FR)

<b>Specifications</b>	Fabric with low stretch and high tensile strength
<b>Applications</b>	Curtains
<b>Weight g/sqm</b>	300
<b>Width cm</b>	150
<b>Tensile strength N/cm</b>	Warp 480
	Weft 250
<b>Weave pattern</b>	Crepe

Please pay attention to the general product specifications, safety information, cleaning and sewing recommendations.

The values are given as an indication and can change according to application conditions. They do not constitute a warranty.

Users must determine material suitability for their specific purposes prior to use.

Porcher Industries declines all responsibility in case of damage of the fabric related to a non-adequate use, installation or no respect of instructions.

Please refer to General terms and conditions of Porcher Industries, subject to change without notice.
